A paradise for tourists, California contains a land area of 156,803 sq. mi., with every contrasting extreme of topography and climate to be found in U. S., with highest (Mt. Whitney) and lowest (Death Valley) points in U. S. Capital, Sacramento; population, nearly 11,000,000. Leads world in production of motion pictures. Rich in production of petroleum, mineral products and cotton; furnishes bulk of nation's supply of farm produce. Second largest state in Union.
